

Villawood North Public School

Works notification | 18 November 2024

Dear staff, parents and carers,

We will be renovating the movement areas leading to the classrooms in Buildings C and D at Villawood North Public School. This includes upgrading the ceilings, floors and handrails.

The renovations involve replacing the eave linings in both buildings that are listed on the school's asbestos register.

Contractors will remove the eave linings on Saturday 14 December and Sunday 15 December from Building C and Saturday 21 December and Sunday 22 December from Building D. Work will take place between 7 am and 5 pm. Due to council noise restrictions, all noise producing work will start after 8 am.

There will be no impact to school operations during this work.

We have engaged an independent hygienist to be on site both weekends to conduct air monitoring.

All work involving asbestos-containing materials will take place outside of school hours.

All work will be done in accordance with work health and safety laws and the NSW Department of Education's Asbestos Management Plan. Safety measures will be in place while work is being done. All work will be completed by licensed asbestos contractors and monitored by independent hygienists.

Once works are completed on each building, a clearance certificate will be issued by the independent hygienist at the end of each weekend.

The health, safety, and wellbeing of the school and the local community is our highest priority.

Thank you for your cooperation during this important work.
